I just bought Super Sprint and the nifty manual came with it, so I
figured
I'd post the switch settings for anyone that is interested...

SUPER SPRINT DIP SWITCH SETTINGS

(Note: Accounting Information and High Score erasing are available
 from the self-test mode. The self-test switch is located on the
 audio board near the coin mech.)

From the manual:

                    Coin and Credit Option Settings

     Settings of 8-Toggle Switch on Super Sprint CPU PCB (at 6/7A)
 1   2   3   4   5   6   7   8   Option

                                 Coins per Credit

                         Off Off 1 Coin 1 Credit*
                         Off On   2 Coins 1 Credit
                         On Off 3 Coins 1 Credit
                         On On   4 Coins 1 Credit
                                 All Coin Mechanisms

                 Off Off Off   1 Coin counts as 1 Coin*
                 Off Off On   1 Coin counts as 2 Coins
                 Off On Off   1 Coin counts as 3 Coins
